

Deep Cove Physiotherapy

Meet Rosalind Ferry

***Our mission is to provide
you with the very best
care possible.***

***ROSALIND FERRY,
REGISTERED PHYSIOTHERAPIST
MCSP***

Raised in Kenya, where her father was a doctor specializing in tropical medicine, Ros Ferry did her physiotherapy training at Middlesex Hospital in London, England. After practicing at Churchill Hospital in Oxford, she emigrated to Canada and worked at hospitals in Victoria and Yellowknife before moving to North Vancouver to join Lions Gate Hospital's physiotherapy staff.

She has been in private practice at Deep Cove Physiotherapy since 1987 and has taken a host of professional courses in sports physiotherapy, orthopaedics and vestibular rehabilitation. She currently runs various programs for osteoporotic patients as well as a prevention of falls program.

Ros has a keen interest in postural re-alignment, balance, neck and vestibular problems, which fits well with her deep personal interest in all aspects of equestrian sports, especially dressage. She and husband Jon live in Deep Cove.

***Ros looks forward to working with you
at Deep Cove Physiotherapy***

Open to Every Body

Medical referrals are not required for Clinic services.
